

CASE STUDY

Sector: SME Enterprise operating in UK and Europe.

In 2008, TDAS took over the financial accounting of Comet Consulting Ltd who is a multi disciplinary advisory service that advise upon, implement, and deliver practical, innovative real estate/property and facilities management solutions to clients in the public and private sector.

During a period of rapid change and growth TDAS implemented a fully functioning book-keeping service and utilising a web tool called Sharepoint, provided an effective and efficient management reporting system.

As a consequence of these efficiency improvements TDAS was able to reduce management time to eight hours per week to deliver:

- Management Accounts
- Payroll
- Budgeting and Planning
- Cash Management
- VAT
- Book Keeping
- Invoicing
- Credit Control

Client comment: Julie Jackson Company Director

TDAS provided a flexible and was immediately able to make a contribution to the financial management of our business during a period of rapid growth and change. Clear and timely reporting, provided transparency within the business, and the ability for the management to make informed decisions quickly.
